RE: Inmate Calling Solutions, LLC

WC Docket No. 12-375, *In the Matter of Inmate Calling Services*; Inmate Calling Service Provider Annual Report and Certification

Pursuant to FCC 47 C.F.R. §64.6060, and its Order DA 19-173 released on March 12, 2019, in the above referenced docket, Inmate Calling Solutions, LLC ("ICSolutions" or "Company") hereby submits its Inmate Calling Services Annual Report and Certification, FCC Forms 2301 (a) and 2301 (b) for the 2018 reporting year. This data is being submitted pursuant to the Protective Order¹ and the Wireline Competition Bureau's March 12, 2019, Public Notice.² ICSolutions respectfully requests the Commission withhold from public inspection and grant confidential treatment of the following information, pursuant to 47 C.F.R. §§ 0.459(b)(4)-(6):

- The Company's Narrative Descriptions and Explanation of the Reporting;
- FCC Form 2301(a)
  - Section III Number of Times Ancillary fee has been Charged;
  - Section IV Variable Site Commissions;
  - Section V Fixed Site Commissions Required by Contract

Public release of this information could significantly damage ICSolutions' competitive position by divulging the Company's proprietary narrative descriptions, explanation of the reporting, data concerning site commissions and the number of times ancillary fees were charged. The narrative descriptions and explanation of the reporting represent a disclosure of internal business processes that could help a competitor understand ICSolutions' management of its operating costs and thereby adversely affect its competitive advantage. Competitors could use site commission information to their advantage when bidding on contracts, since this information makes it easy to estimate the Company's revenues and know its consumer purchasing statistics. The ancillary service fee count also illustrates the Company's marketing success and the effectiveness of its interactive voice response application. Allowing this information to be in the public domain would put ICSolutions at a disadvantage when attempting to obtain new business and continue providing current service. As ICSolutions is in a competitive market allowing its competitors access to this data would damage its position in the market and future potential growth.
